## The College Senior Survey (CSS)

Developed by the Higher Education Research Institute (HERI) in 1992, the College Senior Survey (CSS) is administered annually through the Cooperative Institutional Research Program (CIRP) at the University of California, Los Angeles. The CSS, which is typically administered to college seniors as an "exit" survey, offers valuable feedback on students' academic and campus life experiences. Information from the CSS can be used for student assessment activities, accreditation and self-study reports, campus planning, research, and policy analysis. When used as a follow-up instrument to other CIRP surveys, such as the Freshman Survey (TFS) or the Your First College Year (YFCY) Survey, the CSS generates valuable longitudinal data on students' cognitive and affective growth during college. With its focus on a broad range of college student experiences, including academic achievement and engagement, satisfaction with the college experience, values, attitudes, goals, degree aspirations, career plans, and other post-college plans, institutional and other researchers have used the CSS to study topics such as college retention, leadership development, faculty mentoring, civic engagement, student development and learning, and college satisfaction. The CSS has also been used to assess a wide variety of instructional and co-curricular practices.

This report summarizes the results of the 2009 administration of the CSS. For the first time this report includes the CIRP Constructs. The Constructs are designed to capture the experiences and outcomes institutions are often most interested in understanding, but which present a measurement challenge because of their complex and multifaceted nature. To measure these broad underlying areas more precisely, we use Item Response Theory (IRT) to combine individual survey items into global measures which we call Constructs. In this report we examine differences in the Constructs by gender, race/ethnicity, and first-generation status.

## 2009 National Demographics

In 2009, 111 baccalaureate institutions participated in the CSS (Appendix A). As Table 1 shows, the majority of these four-year colleges and universities were private (83.8\%) and religiously affiliated (50.4\%). Fifteen participating institutions (13.5\%) were either public universities ( $n=5$ ) or public four-year colleges ( $n=10$ ), and three additional institutions (2.7\%) were historically black colleges or universities (HBCUs). The sample skewed towards more
selective schools (as measured by the median SAT and/or ACT composite score of the entering class): almost half of participating institutions were highly selective (45.0\%) and only one quarter (24.3\%) were of low selectivity.

Table 1
Participation in the 2009 CSS by Institutional Type

|  | Selectivity* |  |  |  |  |  |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: |
| Institutional Type | Very Low/ <br> Low | Medium | High/ <br> Very High | Total \# <br> institutions | Percent <br> of total |  |
| Public | University | 1 | 3 | 1 | 5 | 4.5 |
|  | 4-year | 1 | 4 | 5 | 10 | 9.0 |
| Private | University | -- | 3 | 6 | 9 | 8.1 |
| $\quad$ Nonsectarian 4-year | 7 | 3 | 18 | 28 | 25.2 |  |
| $\quad$ Catholic 4-year | 6 | 4 | 13 | 23 | 20.7 |  |
| $\quad$ Other Religious 4-year | 12 | 14 | 7 | 33 | 29.7 |  |
| HBCU | Public 4-year | -- | -- | -- | 2 | 1.8 |
| $\quad$ Other Religious 4-year | -- | -- | -- | 1 | 0.9 |  |
| Total \# institutions | 27 | 31 | 50 | 111 |  |  |
| Percent of total | 24.3 | 27.9 | 45.0 |  |  |  |

*Note: Selectivity is based on median SAT Verbal and Math scores and/or ACT composite scores of the entering class as reported to IPEDS. Institutions with unknown selectivity are grouped with the low-selectivity institutions. Selectivity groups should not be used as a measure of institutional or program quality.

The group of graduating seniors that took the 2009 CSS was quite large, although not entirely representative of the undergraduate population nationwide. In this report, a "graduating senior" is defined as a student who indicates that she or he will earn a Bachelor's (B.S., B.A., etc.) degree as of June 2009, regardless of time of college entry. Of the 24,457 graduating seniors who participated in the survey, $62.2 \%$ were female and nearly all (94.9\%) were native English speakers (Table 2). About one in ten students (11.3\%) were the first in their family to graduate from college. The overwhelming majority of respondents (80.0\%) identified as white/Caucasian; fewer were Asian American/Asian (6.8\%), African American/Black (5.4\%), Mexican American/Chicano (4.1\%), or other (3.6\%). A small percentage identified as other Latino (3.1\%), American Indian/Alaska Native (1.6\%), Native Hawaiian/Pacific Islander (1.1\%), or Puerto Rican (1.0\%). By comparison, national bachelor's degree completion figures for 2008, the latest year available, reflect white students in the majority (70.8\%), followed by Black students
(11.1\%), Latino/a (8.0\%), Asian and Pacific Islanders (6.6\%), and American Indians/Alaskan Natives (0.8\%) (NCES, 2008).

Table 2
Demographic Summary by Gender \& Race Total Respondents $=24,457$

|  | Percent of total* |
| :--- | :---: |
| Female |  |
| Male | 62.2 |
|  | 37.8 |
| Native language is English | 94.9 |
| First generation in college | 11.3 |
| White/Caucasian | 80.0 |
| Asian American/Asian | 6.8 |
| African American/Black | 5.4 |
| Mexican American/Chicano | 4.1 |
| Other | 3.6 |
| Other Latino/a | 3.1 |
| American Indian/Alaska Native | 1.6 |
| Native Hawaiian/Pacific Islander | 1.1 |
| Puerto Rican | 1.0 |

*Note: Sum of percentages for racial/ethnic groups is greater than 100 because students may choose more than one group identification.

With regard to students' academic status (Table 3), the vast majority of the students in the sample (95.4\%) were full-time undergraduates when they completed the survey, and $86.0 \%$ reported an overall college grade point average of a "B" or better. Additionally, approximately one out of every five students transferred to their current college from either a community college (12.3\%) or another four-year institution (9.9\%). Only a small percentage of students (6.8\%) indicated they temporarily withdrew from school at some point during their undergraduate years.

Table 3
Student Academic Status

|  |  |
| :--- | :---: |
| Enrollment Status at time of CSS | Percent |
| Full-time undergraduate | 95.4 |
| Part-time undergraduate | 3.7 |
| Not currently enrolled | 0.9 |
|  |  |
| Transferred from a community college | 12.3 |
| Transferred from a 4-year college | 9.9 |
| Withdrawn from school temporarily | 6.8 |
|  |  |
| Overall GPA |  |
|  | 16.8 |
| A or A+ | 25.5 |
| A- | 24.7 |
| B+ | 19.0 |
| B | 8.5 |
| B- | 4.3 |
| C+ | 1.2 |

## Academic Experiences and Engagement in College

Engagement and participation in the academic curriculum is the hallmark of the college experience. In terms of academic life, and as would be expected, college seniors reported spending a significant amount of their time attending classes and labs (Table 4). In a typical week during senior year, three-fifths of students attended classes/labs for more than ten hours (64.2\%). However, only four in ten students (43.6\%) spent more than ten hours per week studying or doing homework.

## Table 4

Time Spent on Academics

Hours spent during a typical week in the past year:

> Attending classes/labs Studying/homework

| 10 hours or less | 35.7 | 56.4 |
| :--- | ---: | ---: |
| 11 to 15 hours | 34.1 | 18.7 |
| 16 to 20 hours | 21.7 | 12.7 |
| More than 20 hours | 8.4 | 12.2 |

Overall, seniors report being academically engaged in and out of the classroom during their four years of college (Table 5). The majority of students (69.8\%) indicated that since entering college they "frequently" discussed course content with their fellow students outside of class, and two in five (45.0\%) "frequently" studied with other students. Nearly three in ten students (30.4\%) report having participated in a study-abroad program during college, and the same proportion (31.9\%) enrolled in honors or advanced courses. Additionally, since entering college, $54.6 \%$ of students reported participating in an internship program.

Table 5
Academic Engagement

| Percent of students reporting that since entering college, | Percent |
| :--- | :---: |
| they "frequently": |  |
|  | 69.8 |
| Discussed course content with students outside of class | 45.0 |
| Studied with other students | 33.4 |
| Worked on independent study projects | 11.2 |
| Tutored another student | Percent |
| Percent of students reporting that since entering college, they: |  |
|  | 54.6 |
| Participated in an internship program | 31.9 |
| Enrolled in honors or advanced courses | 30.4 |

The 2009 CSS contains items that ask students to reflect on their growth during their undergraduate education (Table 6). When asked to compare themselves to when they first started college, nearly all of the seniors rated themselves "stronger" or "much stronger" in their knowledge of a particular field or discipline (98.0\%) and general knowledge (96.7\%). Also noteworthy is that an overwhelming majority of students felt that their ability to think critically (93.7\%) and their analytical and problem solving skills (93.5\%) were "stronger" or "much stronger" after college. In addition to making academic gains, students also report improvement in areas such as interpersonal skills and leadership abilities, where $88.0 \%$ and $82.8 \%$, respectively, of all seniors felt "stronger" or "much stronger" than prior to beginning their college education.

Table 6
Self-Rated Gains

| Compared with when they first started college, percent of students <br> rating themselves "stronger" or "much stronger" in terms of: | Percent |
| :--- | :---: |
|  |  |
| Knowledge of a particular field or discipline | 98.0 |
| General knowledge | 96.7 |
| Ability to think critically | 93.7 |
| Analytical and problem-solving skills | 93.5 |
| Interpersonal skills | 88.0 |
| Preparedness for employment after college | 86.8 |
| Preparedness for graduate or advanced education | 87.3 |
| Leadership abilities | 82.8 |

Although seniors generally report high levels of academic engagement and gains in college, there were some indications of academic disengagement among students as well. The CIRP Academic Disengagement Construct measures the extent to which students engage in behaviors that are inconsistent with academic success. The construct is made up of four variables on the CSS (see Appendix D). The data in Table 7 show that there are notable differences in academic disengagement by gender and race/ethnicity, but not by first-generation status. Specifically, men are more likely to show signs of academic disengagement than women; $34.0 \%$ of males are in the high score group on academic disengagement and only $21.6 \%$ of females are in this group. American Indian, Asian/PI American and African American students are more likely to have academic disengagement behaviors (46.2\%, 34.8\%, and 39.5\% in high score group, respectively) than other racial/ethnic groups, and white students at only $24.0 \%$ in the high score group are less likely than all other racial/ethnic groups to score high on academic disengagement.

Table 7
CIRP Construct: Academic Disengagement (Percentages)

|  | Academic Disengagement |  |  |
| :--- | :--- | :--- | :--- |
|  | Low | Average | High |
| Gender |  |  |  |
| Male | 23.5 | 42.4 | 34.0 |
| Female | 30.8 | 47.7 | 21.6 |
| Race/Ethnicity Group |  |  |  |
| American Indian |  |  |  |
| Asian/PI American | 15.4 | 38.5 | 46.2 |
| African American | 25.3 | 39.9 | 34.8 |
| Latino/a | 17.8 | 42.8 | 39.5 |
| White | 23.8 | 47.5 | 28.7 |
| Multi-Racial | 29.7 | 46.3 | 24.0 |
| Other | 21.7 | 46.6 | 31.7 |
| First Generation in College | 27.9 | 42.6 | 29.4 |
| Yes |  |  |  |
| No | 27.9 | 45.3 | 26.8 |

Note: CIRP Constructs are scored on a normal curve, a "Low" score represents students who are one-half standard deviation or more below the mean, a "High" score represents students who are one-half standard deviation or more above the mean, and an "Average" score represents students whose scores are within one-half standard deviation of the mean.

## Interaction with Faculty

CIRP has developed a Student-Faculty Interaction Construct to measure the extent to which students and faculty establish mentoring relationships. This constructs encompasses both academic and personal support from members of the faculty and is made up of ten variables on the CSS (see Appendix D). Looking at the distribution by score group (Table 8), results show that female students are more likely to establish mentoring relationships in their interactions with faculty than male students. One third (33.3\%) of female students are in the high score group on student-faculty interaction compared to just over one fourth (26.7\%) of male students. There are few appreciable differences in this construct by race/ethnicity or first-generation status, although a larger percentage of American Indian students (36.5\%) are in the high score group as compared to all other racial/ethnic groups.

Table 8
CIRP Construct: Student-Faculty Interaction (Percentages)

|  | Student-Faculty Interaction |  |  |
| :---: | :---: | :---: | :---: |
| Gender | Low | Average | High |
| Male |  |  |  |
| Female | 33.2 | 40.1 | 26.7 |
| Race/Ethnicity Group | 29.3 | 37.4 | 33.3 |
| American Indian |  |  |  |
| Asian/PI American | 28.8 | 34.6 | 36.5 |
| African American | 33.8 | 36.4 | 29.7 |
| Latino/a | 30.9 | 36.2 | 32.8 |
| White | 32.5 | 36.3 | 31.2 |
| Multi-Racial | 30.2 | 38.9 | 30.9 |
| Other | 32.8 | 38.0 | 29.2 |
| First Generation in College | 31.4 | 38.1 | 30.5 |
| Yes |  |  |  |
| No |  |  |  |
|  |  | 39.7 | 39.7 |

[^0]In regard to actual time spent per week with faculty during senior year, distributions across settings vary somewhat (Table 9). Only about one in ten students (11.3\%) report having no interaction at all with faculty during office hours and almost one-fifth of the seniors (19.6\%) report no interaction outside of class or office hours in a typical week. About half of the students report less than one hour of interaction with faculty members per week during office hours (47.2\%) or outside the classroom or office hours (48.6\%). Approximately one-third (30.9\%) indicate having engaged and interacted with faculty between one and two hours per week during office hours and almost one in four students (23.2\%) reported this amount of weekly interaction beyond official consultation hours and the classroom in their senior year. Very few students reported interacting with faculty outside of the classroom for two hours or more per week senior year; $10.6 \%$ reported this amount of interaction during office hours and $8.7 \%$ reported this amount of interaction outside of class and office hours.

## Table 9

Time Spent with Faculty During Senior Year

| Percent of students reporting they: | Percent |
| :--- | :---: |
| Interacted with faculty during office hours |  |
| None | 11.3 |
| Less than one hour | 47.2 |
| 1 to 2 hours | 30.9 |
| 2 hours and more | 10.6 |
|  |  |
| Interacted with faculty outside of class or office hours | 19.6 |
| None | 48.6 |
| Less than one hour | 23.2 |
| 1 to 2 hours | 8.7 |
| 2 hours and more |  |

## Satisfaction with College and Campus Community

## Overall Satisfaction and Satisfaction with Courses

The CIRP Overall College Satisfaction Construct is a unified measure of student satisfaction with the college experience and is comprised of three items on the CSS (see Appendix D). Although there are no appreciable differences in overall satisfaction by gender, there are differences in satisfaction based on race/ethnicity and first-generation status. In terms of race/ethnicity, white, Latino/a, and multi-racial students are more satisfied with their overall college experience than students in other racial/ethnic groups, with $36.6 \%, 36.3 \%$ and $32.8 \%$ of students, respectively, in the high score group on this construct. African American students are the least likely to be satisfied with the college experience; only one in five (21.2\%) African American students are in the high score group, compared to almost four in ten (37.9\%) who are in the low score group of this construct. Additionally, first-generation students (38.9\% in high score group) are more likely to be satisfied with their overall college experience than students whose parents have attended college (30.4\% in high score group).

Table 10
CIRP Construct - Overall Satisfaction (Percentages)

|  | Overall Satisfaction |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Gender |  | Low | Average | High |
|  |  |  |  |  |
| Male | 24.0 | 42.0 | 34.0 |  |
| Female | 22.5 | 42.3 | 35.2 |  |
| Race/Ethnicity Group |  |  |  |  |
| American Indian |  |  |  |  |
| Asian/PI American |  | 26.9 | 42.3 | 30.8 |
| African American |  | 47.9 | 45.4 | 26.6 |
| Latino/a | 23.0 | 40.9 | 21.2 |  |
| White | 21.3 | 42.1 | 36.3 |  |
| Multi-Racial | 25.1 | 42.1 | 36.6 |  |
| Other | 31.5 | 43.6 | 32.8 |  |
|  |  |  | 24.9 |  |
| First Generation in College |  |  |  |  |
| Yes | 19.7 | 41.4 | 38.9 |  |
| No | 27.9 | 41.6 | 30.4 |  |

Note: CIRP Constructs are scored on a normal curve, a "Low" score represents students who are one-half standard deviation or more below the mean, a "High" score represents students who are one-half standard deviation or more above the mean, and an "Average" score represents students whose scores are within one-half standard deviation of the mean.

The CIRP Construct Satisfaction with Courses measures the extent to which students see their coursework as relevant, useful, and applicable to their academic success and future plans. The construct examines response pattern across four items on the CSS survey (see Appendix D). Assessing the distributions by score groups (Table 11), results indicate significant differences by race/ethnicity, few appreciable differences by gender, and no differences by first generation status. American Indian (40.4\% in high score group) and Latino/a students (33.5\% in high score group) are the most satisfied with their coursework and Asian/PI Americans are the least satisfied, with only one-fourth (25.0\%) in the high score group on this construct. African American and white college seniors appear equally satisfied and dissatisfied with their coursework, with $31.7 \%$ and $29.2 \%$, respectively, of the students in the low score group and $28.7 \%$ and $28.6 \%$, respectively, in the high score group on this construct.

Table 11
CIRP Construct - Satisfaction with Courses (Percentages)

|  | Satisfaction with Courses |  |  |
| :---: | :---: | :---: | :---: |
|  | Low | Average | High |
| Gender |  |  |  |
| Male | 31.6 | 40.9 | 27.5 |
| Female | 28.6 | 42.2 | 29.2 |
| Race/Ethnicity Group |  |  |  |
| American Indian | 25.0 | 34.6 | 40.4 |
| Asian/PI American | 33.1 | 41.9 | 25.0 |
| African American | 31.7 | 39.7 | 28.7 |
| Latino/a | 25.8 | 40.7 | 33.5 |
| White | 29.2 | 42.2 | 28.6 |
| Multi-Racial | 32.8 | 39.0 | 28.2 |
| Other | 35.3 | 37.3 | 27.4 |
| First Generation in College |  |  |  |
| Yes | 29.8 | 42.0 | 28.2 |
| No | 29.4 | 41.8 | 28.8 |

Note: CIRP Constructs are scored on a normal curve, a "Low" score represents students who are one-half standard deviation or more below the mean, a "High" score represents students who are one-half standard deviation or more above the mean, and an "Average" score represents students whose scores are within one-half standard deviation of the mean.

The majority of students also expressed strong satisfaction with academic services and facilities (Table 12), though some areas rate higher than others. For those students who expressed an opinion, the top domains included class size, where a resounding $89.9 \%$ of seniors reported being "satisfied" and "very satisfied" with the number of students in their classes. In regard to library facilities and academic advising, almost four out of five students (78.1\%) and almost twothirds (62.7\%), respectively, expressed similar levels of satisfaction. Noticeably, fewer students indicated such high levels of satisfaction in the areas of laboratory facilities and equipment (55.9\%), tutoring or other forms of academic assistance (51.2\%), and career counseling and advising (49.4\%).

Table 12
Satisfaction with Academic Services \& Facilities

| Percent of students reporting that they are "satisfied" or "very satisfied" with: | Percent* | Percent "can't rate/ don't know" |
| :---: | :---: | :---: |
| Class size | 89.9 | -- |
| Library facilities | 78.1 | 0.9 |
| Academic advising | 62.7 | 1.6 |
| Laboratory facilities and equipment | 55.9 | 15.7 |
| Tutoring or other academic assistance | 51.2 | 22.4 |
| Career counseling and advising | 49.4 | 9.7 |

## Satisfaction with Campus Community and Sense of Belonging

Taking a closer look at students' satisfaction with the campus community (Table 13), the majority of seniors respond with favorable reviews. Nearly nine in ten students report they are "satisfied" or "very satisfied" about their interaction with other students (88.0\%), and almost as many (82.5\%) are "satisfied" or "very satisfied" with the size of their college's student population. Additionally, three out of four graduating seniors (74.8\%) report high levels of satisfaction with the overall sense of community among students and more than two-thirds (69.3\%) are "satisfied" or "very satisfied" with the availability of social activities on campus.

## Table 13

Satisfaction with Campus Community
Percent of students reporting that they are
"satisfied" or "very satisfied" with:

## Percent

Interaction with other students
88.0

Size of student population 82.5

Overall sense of community among students
74.8

Availability of campus social activities 69.3

The CIRP Construct Sense of Belonging measures the extent to which students feel a sense of academic and social integration on campus. It is made up of three variables on the CSS (see Appendix D). The data in Table 14 show that there are notable differences in sense of belonging by first generation status and for different racial/ethnic groups, but no appreciable
differences by gender. Examining differences by first generation status reveals that students who are the first in their families to attend college have a much stronger sense of belonging to their campus and campus community ( $42.4 \%$ in the high score group) when compared to non firstgeneration students ( $32.5 \%$ in the high score group). In regard to race/ethnicity, American Indian and white students show the highest amount of academic and social integration on campus, with approximately four out of ten seniors ( $40.4 \%$ and $38.3 \%$, respectively) in the high score group. African Americans report the lowest attachment to the campus and campus community and represent the only racial/ethnic group in which the number of students in the low score group (29.1\%) exceeds those in the high score group (28.6\%) of this construct.

Table 14
CIRP Construct - Sense of Belonging (Percentages)

|  | Sense of Belonging |  |  |
| :---: | :---: | :---: | :---: |
|  | Low | Average | High |
| Gender |  |  |  |
| Male | 21.8 | 40.5 | 37.7 |
| Female | 19.7 | 44.2 | 36.1 |
| Race/Ethnicity Group |  |  |  |
| American Indian | 21.2 | 38.5 | 40.4 |
| Asian/PI American | 22.7 | 46.2 | 31.1 |
| African American | 29.1 | 42.3 | 28.6 |
| Latino/a | 23.3 | 44.0 | 32.8 |
| White | 18.9 | 42.9 | 38.3 |
| Multi-Racial | 26.8 | 39.2 | 34.0 |
| Other | 27.4 | 41.4 | 31.1 |
| First Generation in College |  |  |  |
| Yes | 15.4 | 42.2 | 42.4 |
| No | 20.1 | 47.3 | 32.5 |

Note: CIRP Constructs are scored on a normal curve, a "Low" score represents students who are one-half standard deviation or more below the mean, a "High" score represents students who are one-half standard deviation or more above the mean, and an "Average" score represents students whose scores are within one-half standard deviation of the mean.

## Finances and Employment

Financial concerns are a growing source of anxiety for students. As seniors graduate with increasing debt burden, the repercussions will undoubtedly be felt in the types of jobs they pursue, whether or not they apply to graduate school, or any number of different post-college options (Bernard, 2009; Rothstein \& Rouse, 2007). Table 15 reveals that almost half of all college seniors (44.7\%) rely on the help of family resources to pay for more than \$10,000 of their educational expenses (including room, board, tuition and fees) in just the past year. In addition to family resources, students are also tapping into their own reserves to pay for increasing college costs. Of the seniors surveyed, $40.4 \%$ of them spent between $\$ 1,000$ and \$9,999 of their own money in the past year on their education.

## Table 15

Sources of Aid

| Source of aid for educational expenses <br> during the past year | Percent <br> receiving less <br> than $\$ 1,000$ | Percent <br> receiving <br> $\$ 1,000-\$ 9,999$ | Percent <br> receiving <br> $\$ 10,000$ or more |
| :--- | :---: | :---: | :---: |
| Family resources <br> (parents, relatives, spouse, etc.) | 25.1 | 30.2 | 44.7 |
| Aid which must be repaid <br> (loans, etc.) | 37.8 | 30.8 | 31.3 |
| Aid which need not be repaid <br> (grants, scholarships, military funding, etc.) | 30.8 | 36.9 | 32.4 |
| Students' own resources <br> (savings from work, work-study, etc.) | 54.8 | 40.4 | 4.9 |
| Other sources | 88.4 | 8.2 | 3.5 |

Besides family and personal resources, most students are also eligible to receive financial aid that they may or may not be required to pay back. Approximately a third of respondents (32.4\%) reported that, in the past year, they received more than $\$ 10,000$ in aid that did not need to be repaid. A slightly smaller proportion of students accumulated over $\$ 10,000$ in aid in the past year that must be repaid (31.3\%). For those who borrowed money to help pay for college expenses, Table 16 reveals that on average, students who borrowed money will owe approximately $\$ 33,000$ by the time they finish college.

Table 16
Student Debt
Estimated amount owed as of June 30, 2009
(among those students who borrowed money to pay for college):
Amount

Mean
\$33,168
Median
\$24,000
\% with loan debt ( $\mathrm{N}=14,525$ ) 59.4

Perhaps because of the financial pressure, many students report working while in college (Table 17). About one in four seniors indicated they worked (for pay) between six to twenty hours per week on campus (28.8\%) and/or off campus (22.6\%) during the last year. Another $12.4 \%$ of students reported working more than 20 hours per week off campus, but only a small percentage (2.2\%) indicated the same workload on campus. Working while in school can have its drawbacks, however. Of the students that reported working six to twenty hours on campus, almost one-fourth (22.8\%) "occasionally" or "frequently" missed classes due to their employment. This number increases to $34.7 \%$ of the students that work off-campus this amount of hours. Of the seniors reporting to work more than 20 hours a week on campus, almost two out of every five students (39.0\%) indicated they at least "occasionally" missed classes due their work obligations. For students working this many hours off campus, more than half (52.9\%) reported that they at least "occasionally" missed class due to employment.

## Table 17

Employment

|  | Percent |  |  |
| :--- | :---: | :---: | :---: |
| In a typical week in the past year: | On Campus | Off Campus |  |
| Spent 6-20 hours per week working (for pay): | 28.8 | 22.6 |  |
| Spent more than 20 hours per week working (for pay) | 2.2 | 12.4 |  |
|  | Percent |  |  |
| Of these students, percent reporting that they had: | On Campus | Off Campus |  |
|  |  |  |  |
| "occasionally" or "frequently" missed class due to employment |  |  |  |

| Spent more than 20 hours per week working (for pay) | 39.0 | 52.9 |  |

## Civic Engagement, Awareness, and Social Agency

Many graduating seniors are paying attention to the world around them and are civically engaged in their communities. The data in Table 18 reveals that students on the nation's campuses show strong interest in politics and political matters. More than four out of five students (83.7\%) report that since entering college they "occasionally" or "frequently" discussed politics with their peers. They were also heavily involved in volunteer work; over two-thirds of the seniors (71.4\%) report having "occasionally" or "frequently" performed volunteer work since entering college. In addition, more than two-thirds of the students (68.6\%) indicated that they "occasionally" or "frequently" voted in student elections. However, only a small proportion of graduating seniors report that same amount of involvement in regard to participation in political demonstrations (15.4\%), demonstrations for/against a war (15.3\%), or work on a local, state, or national political campaigns (12.4\%).

## Table 18 <br> Civic Engagement

Percent of students reporting that since entering college they "occasionally" or "frequently": Percent

Discussed politics 83.7

Performed volunteer work
71.4

Voted in a student election
68.6

Participated in political demonstrations
15.4

Demonstrated for/against a war 15.3

Worked on a local, state, or national political campaign 12.4
During the course of their studies, these seniors witnessed a historically long presidential campaign leading up to the election in 2008, for which the majority of them reported voting (78.0\%). However, data in Table 19 show that there exist noticeable differences in voting behavior. Female students were more likely to report voting in the election (80.5\%) than their male peers (73.7\%). White students report the highest percentage of voters in 2008 presidential election (80.7\%), followed by American Indian (80.4\%), multi-racial (80.1\%), African American (79.8\%), Latino/a (67.6\%), and other (66.7\%) students. Asian/PI Americans report the lowest percentage with only about half of the seniors (53.8\%) indicating they voted in the 2008 presidential election.

Table 19
Voting behavior in 2008 Presidential Election

| Percent of students reporting they voted in <br> the 2008 presidential election (by group) | Percent |
| :--- | :---: |
| Gender |  |
| Female | 80.5 |
| Male | 73.7 |
| Race/Ethnicity Group |  |
| White | 80.7 |
| American Indian | 80.4 |
| Multi-Racial | 80.1 |
| African American | 79.8 |
| Latino/a | 67.6 |
| Other | 66.7 |
| Asian/PI American | 53.8 |

To better understand changes in students’ understanding of issues facing their community, nation, and the world, CIRP introduced the Civic Awareness Construct. This construct is comprised of three CSS items (see Appendix D). The data in Table 20 show notable differences on growth in civic awareness by race/ethnicity, but only few differences by first generation status and gender. Examining results by race/ethnicity, data show that Latino/a, American Indian, and African American students show a heightened sense of civic awareness, as more than two out of five seniors fall into the high score group (44.5\%, 42.3\%, and 40.9\% respectively) of this construct. Asian/PI American and white students show less growth in understanding issues facing the world, the nation, and their community, as only about one-third of the seniors in these groups are in the high score group ( $31.8 \%$ and $33.8 \%$, respectively) on this construct.

Table 20
CIRP Construct: Civic Awareness (Percentages)

|  | Civic Awareness |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Gender | Low | Average | High |  |
| Male |  |  |  |  |
| Female | 27.9 | 38.7 | 33.4 |  |
| Race/Ethnicity Group | 26.0 | 38.6 | 35.4 |  |
| American Indian |  |  |  |  |
| Asian/PI American |  |  |  |  |
| African American | 21.2 | 36.5 | 42.3 |  |
| Latino/a | 25.5 | 41.3 | 31.8 |  |
| White | 21.6 | 33.6 | 40.9 |  |
| Multi-Racial | 27.0 | 33.9 | 44.5 |  |
| Other | 27.9 | 35.2 | 33.8 |  |
| Yen | 26.7 | 39.1 | 34.8 |  |
| First Generation in College |  |  |  |  |
| Yes |  |  |  |  |
| No | 25.0 | 40.0 | 35.0 |  |

Note: CIRP Constructs are scored on a normal curve, a "Low" score represents students who are one-half standard deviation or more below the mean, a "High" score represents students who are one-half standard deviation or more above the mean, and an "Average" score represents students whose scores are within one-half standard deviation of the mean.

The CIRP Construct Social Agency measures the extent to which students value political and social involvement as a personal goal. This construct is comprised of six CSS survey items (see appendix D). Examining the data on social agency in Table 21 by gender and race/ethnicity reveals notable differences, but only slight differences by first generation status. Female students give greater weight to social agency in their lives than their male peers. Results show that almost one-third of the female students (32.3\%) are in the high score group of this construct, compared to $28.2 \%$ of their male counterparts. Assessing the data by race/ethnicity reveals that African Americans are high on social agency compared to all other racial/ethnic groups, with more than half (53.1\%) falling into the high score group, followed by Latino/a (43.6\%), other (39.1\%), Asian/PI American (37.8\%), American Indian (36.5\%), and multi-racial students (35.8\%). White students seem to place lower value on political and social involvement, as only about one out of four students (27.3\%) fall into the high score group. Furthermore, white students are the only student group that shows a larger representation in the low score group (32.8\%), when compared to the number of seniors in the high score group of this construct.

Table 21
CIRP Construct - Social Agency (Percentages)

|  | Social Agency |  |  |
| :---: | :---: | :---: | :---: |
|  | Low | Average | High |
| Gender |  |  |  |
| Male | 34.6 | 37.3 | 28.2 |
| Female | 28.0 | 39.7 | 32.3 |
| Race/Ethnicity Group |  |  |  |
| American Indian | 32.7 | 30.8 | 36.5 |
| Asian/PI American | 25.5 | 36.8 | 37.8 |
| African American | 15.6 | 31.3 | 53.1 |
| Latino/a | 21.7 | 34.7 | 43.6 |
| White | 32.8 | 39.9 | 27.3 |
| Multi-Racial | 26.5 | 37.7 | 35.8 |
| Other | 25.0 | 35.9 | 39.1 |
| First Generation in College |  |  |  |
| Yes | 30.9 | 39.4 | 29.7 |
| No | 29.5 | 38.9 | 31.6 |

Note: CIRP Constructs are scored on a normal curve, a "Low" score represents students who are one-half standard deviation or more below the mean, a "High" score represents students who are one-half standard deviation or more above the mean, and an "Average" score represents students whose scores are within one-half standard deviation of the mean.

## Experiences with Diversity

Students' experiences with diversity throughout the course of their undergraduate education foster the development of the pluralistic orientation necessary to operate in today's diverse society (Hurtado, 2007). The CIRP Positive Cross-Racial Interaction Construct is a unified measure of students' level of positive interaction with diverse peers. It is comprised of six CSS variables (see Appendix D). The data in Table 22 shows differences by race/ethnicity and gender, but few appreciable differences by first-generation status. Examining results by race/ethnicity shows that students of color report more positive cross-racial interaction than their white peers. More than half of Asian/PI American (53.2\%) and Latino/a students (51.4\%) are in the high score group of this construct, followed by other (49.9\%), multi-racial (47.7\%), African American (47.0\%), and American Indian (40.4\%) students. In contrast, only 26.3\% of white students are in the high score group, and the percentage in the low score group (33.8\%) on this construct actually exceeds the percentage in the high score group. In addition, female students
report higher levels of positive cross-racial interaction (33.6\% in high score group) than their male counterparts (29.5\% in high score group).

Table 22
CIRP Construct - Positive Cross-Racial Interaction (Percentages)

|  | Positive Cross-Racial Interaction |  |  |
| :---: | :---: | :---: | :---: |
|  | Low | Average | High |
| Gender |  |  |  |
| Male | 29.9 | 40.6 | 29.5 |
| Female | 28.7 | 37.6 | 33.6 |
| Race/Ethnicity Group |  |  |  |
| American Indian | 19.2 | 40.4 | 40.4 |
| Asian/PI American | 10.8 | 36.0 | 53.2 |
| African American | 18.8 | 34.3 | 47.0 |
| Latino/a | 12.9 | 35.7 | 51.4 |
| White | 33.8 | 39.9 | 26.3 |
| Multi-Racial | 17.7 | 34.5 | 47.7 |
| Other | 15.5 | 34.6 | 49.9 |
| First Generation in College |  |  |  |
| Yes | 28.6 | 39.0 | 32.5 |
| No | 30.1 | 36.5 | 33.5 |

Note: CIRP Constructs are scored on a normal curve, a "Low" score represents students who are one-half standard deviation or more below the mean, a "High" score represents students who are one-half standard deviation or more above the mean, and an "Average" score represents students whose scores are within one-half standard deviation of the mean.

Although the vast majority of students’ experiences with diversity are positive and productive, seniors did report incidents of negative interactions during their college years. To this end, CIRP developed the Negative Cross-Racial Interaction Construct, which is a unified measure of students' level of negative interaction with diverse peers. This construct is made up of three CSS variables (see Appendix D). Data in Table 23 show that, overall, students of color report more negative cross-racial interaction than their white peers. More than half of African Americans indicate high levels of negative interaction with other racial/ethnic groups (55.1\% in the high score group), followed by other (48.1\%), Asian/PI Americans (47.4\%), American Indian (44.2\%), Latino/a (40.7\%), and multi-racial (35.5\%). In contrast, white students report far less negative cross-racial interaction, with more than four out of ten students (43.2\%) in the low score group and only one-fifth (21.6\%) in the high score group. Given that white students also report less positive cross-racial interaction (Table 22), perhaps, this is indicative of the lower overall
level of cross-racial interaction for students in this group. First generation status and gender also make a difference in how students score on this construct. Students who are the first in their family to attend college or university report notably fewer negative cross-racial interaction ( $26.0 \%$ in high score group) than non first-generation students ( $32.6 \%$ in this group), and female students report noticeable fewer negative cross-racial interactions (24.4\% in high score group) than male students (31.9\% in high score group).

Table 23
CSS Construct - Negative Cross-Racial Interaction (Percentages)

|  | Negative Cross-Racial Interaction |  |  |
| :---: | :---: | :---: | :---: |
|  | Low | Average | High |
| Gender |  |  |  |
| Male | 32.8 | 35.4 | 31.9 |
| Female | 41.5 | 34.2 | 24.4 |
| Race/Ethnicity Group |  |  |  |
| American Indian | 21.2 | 34.6 | 44.2 |
| Asian/PI American | 18.2 | 34.4 | 47.4 |
| African American | 18.0 | 26.9 | 55.1 |
| Latino/a | 25.4 | 33.9 | 40.7 |
| White | 43.2 | 35.3 | 21.6 |
| Multi-Racial | 28.8 | 35.7 | 35.5 |
| Other | 22.9 | 29.0 | 48.1 |
| First Generation in College |  |  |  |
| Yes | 38.5 | 35.6 | 26.0 |
| No | 34.5 | 32.9 | 32.6 |

Note: CIRP Constructs are scored on a normal curve, a "Low" score represents students who are one-half standard deviation or more below the mean, a "High" score represents students who are one-half standard deviation or more above the mean, and an "Average" score represents students whose scores are within one-half standard deviation of the mean.

Table 24 offers a snapshot of the personal importance of diversity for students and satisfaction with diversity on their campuses. While a majority of respondents (61.6\%) indicate that improving understanding of other countries/cultures is "very important" or "essential" to them, fewer students (36.9\%) feel that helping to promote racial understanding is "very important" or "essential" to them. In terms of respect for the expression of diverse beliefs on their campuses, an overwhelming majority of students are "satisfied" or "very satisfied" (74.4\%). Only half, however, were "satisfied" or "very satisfied" with the racial/ethnic diversity of their college's student body (50.5\%).
\(\left.\begin{array}{lc}Table \mathbf{2 4} <br>

Personal Importance and Satisfaction with Diversity\end{array}\right]\)| Percent of students reporting that the following are <br> "very important" or "essential" to them: |  |
| :--- | :---: |
|  | Percent |
| Improve understanding of other countries/cultures | 36.6 |
| Help promote racial understanding |  |
| Percent of students reporting they are |  |
| very satisfied or satisfied with their college's: | Percent |
|  | 74.4 |
| Respect for the expression of diverse beliefs | 50.5 |

## Leisure Activities and Emotional Health

In addition to their academic pursuits, students found plenty of time to engage in the social aspects of college, as shown in Table 25 . During senior year, over two-thirds of students (70.7\%) spent more than five hours in a typical week socializing with friends, and nearly onethird spent more than five hours per week exercising/playing sports (31.7\%) or partying (27.9\%). Some students also report spending some of their free time drinking; about a third of all respondents indicate that they "frequently" drank beer (33.4\%) and/or wine/liquor (31.5\%) in the past year. In terms of heavy episodic drinking, slightly less than half the students report they had not had more than five drinks in a row in the past two weeks (44.7\%), though the majority did at least once (55.3\%). One quarter of students found time to watch TV (24.8\%) or surf the internet (25.7\%) for more than 5 hours per week in a typical week senior year and one in seven (12.8\%) actively engaged in online social networks such as MySpace or Facebook for the same amount of time.

## Table 25

Social \& Leisure Activities
Percent of students reporting that they: Percent

In an average week during the past year, spent more than 5 hours per week:

$$
\text { Socializing with friends } 70.7
$$

Exercising/playing sports 31.7
Partying 27.9
Surfing the internet 25.7
Watching TV 24.8
Student clubs/groups 14.9
Online social networks (MySpace, Facebook) 12.8
In the past year, "frequently":
Drank beer 33.4
Drank wine or liquor 31.5
Smoked cigarettes 6.2
Had five or more alcoholic drinks in a row in the past two weeks:

Zero times 44.7
Once 14.7
Twice 13.6
3-5 times 16.8
6 -9 times 6.8
10 or more times 3.4
Joined a social fraternity or sorority in college 17.5

Despite their social and leisure activities, students have a variety of responsibilities in college that can be a source of stress, so it is perhaps not surprising that $35.1 \%$ of graduating seniors report that in the past year they "frequently" felt overwhelmed by all they had to do (Table 26). While most students did not frequently feel emotionally dispirited—approximately one in twenty respondents "frequently" felt lonely or homesick (5.7\%) or depressed (6.9\%)— nearly half of the students feel such sentiments at least "occasionally" ( $48.1 \%$ and $46.6 \%$, respectively). Additionally, about one out of five students (21.2\%) "occasionally" and one out of twenty (4.5\%) "frequently" sought personal counseling.

Table 26
Emotional Health

|  |  |  |
| :--- | :---: | :---: |
| Percent |  |  | | Percent |
| :---: |
| Percent of students reporting that during the past year, they: | "occasionally" | "frequently" |
| :--- | :---: | :---: |

## Career Choice and Future Plans

During senior year, the vast majority of students (85.7\%) spent at least some time during a typical week planning for their future careers (Table 27). However, students did not necessarily begin their career planning during senior year, as $83.3 \%$ reported meeting with counselors or advisors about their career plans "occasionally" or "frequently" over the entire course of college.

## Table 27

Career Planning

| Hours spent career planning (job searches, internships, etc.) <br> during a typical week in the past year | Percent |
| :--- | :---: |
|  |  |
| None | 14.3 |
| Less than one hour | 24.6 |
| 1 to 2 hours | 31.4 |
| 3 to 5 hours | 19.1 |
| 6 or more hours | 10.6 |
|  |  |
| Since entering college, "occasionally" or "frequently" |  |
| meeting with an advisor or counselor about career plans |  |
|  |  |
| Never | 16.7 |
| Occasionally | 62.5 |
| Frequently | 20.8 |

Students were asked to think about their careers after college and to rate the importance of a variety of career or job attributes to them. In thinking about their career path (Table 28), the vast majority of students (86.7\%) indicated that having a "stable, secure future" was "very
important" or "essential" to them. Almost as many (79.0\%) rated the availability of jobs as a "very important" or "essential" attribute of their future career. Students were not only interested in job stability and security, however. Almost four out of every five students (77.7\%) also indicated that the discovery or enhancement of knowledge was "very important" or "essential" to them, and about two-thirds placed the same amount of importance on the expression of personal values (69.8\%), creativity and initiative (65.7\%), and leadership potential (65.4\%). Only three attributes were rated by fewer than half of graduating seniors as "very important" or "essential." These were working for social change (46.2\%), social recognition or status (36.5\%), and limited working hours (25.7\%).

Table 28
Career Path Considerations

| Percent of students rating the importance for future <br> career path "very important" or "essential" of: | Women | Men | Total |
| :--- | :---: | :---: | :---: |
|  |  |  |  |
| Stable, secure future | 88.0 | 84.5 | 86.7 |
| Availability of jobs | 82.2 | 73.7 | 79.0 |
| Discovery-enhancement of knowledge | 79.1 | 75.4 | 77.7 |
| Expression of personal values | 73.0 | 64.5 | 69.8 |
| Creativity and initiative | 66.2 | 65.0 | 65.7 |
| Leadership potential | 63.5 | 68.6 | 65.4 |
| High income potential | 55.3 | 62.7 | 58.1 |
| Working for social change | 50.5 | 39.1 | 46.2 |
| Social recognition or status | 33.6 | 41.2 | 36.5 |
| Limited working hours | 25.1 | 26.5 | 25.7 |

On the whole, male and female students evaluated each career attribute somewhat differently. On six of the ten career path considerations shown in Table 28, the difference in the proportion of males and females responding "very important" or "essential" was five percentage points or more. Specifically, approximately seven percentage points more males than females indicated that social recognition/status ( $41.2 \%$ of males vs. $33.6 \%$ of females) and high income potential ( $62.7 \%$ vs. $55.3 \%$ ) are "very important" or "essential" attributes of a future career path, and five percentage points more males than females felt leadership potential is "very important" or "essential" ( $68.6 \%$ vs. $63.5 \%$ ). In contrast, 8.5 percentage points more females than males felt that the availability of jobs ( $82.2 \%$ of females vs. $73.7 \%$ of males) and/or the expression of
personal values ( $73.0 \%$ vs. $64.5 \%$ ) are "very important" or "essential" characteristics of careers. Further, 11.4 percentage points more females than males indicated that working for social change is a "very important" or "essential" consideration (50.5\% vs. 39.1\%).

Students had a variety of different plans for the fall immediately after college (Table 29). The most popular fall 2009 plans reported by students were working full-time and attending graduate/professional school, activities which $64.1 \%$ and $28.9 \%$, respectively, of graduating seniors had planned. While most students indicated plans to either work or attend graduate school, some students planned to do both-7.0\% of students reported they would be working full-time in the fall while simultaneously attending graduate/professional school. In addition to graduate school and full-time work, a good proportion of students also indicated plans to travel (19.4\%) and/or do volunteer work (18.2\%). The least popular fall plans were the military and vocational programs-approximately only one in one hundred students indicated plans to go into the armed forces (1.5\%) or attend a vocational training program (1.1\%).

In terms of long-term career goals, the CSS asks students to indicate the lifetime career they will most likely pursue (also shown in Table 29). The most common careers that students selected were in business (19.0\%), elementary or secondary education ( $5.1 \%$ and $6.1 \%$, respectively, for a total of $11.2 \%$ ), artist (7.7\%), medicine (6.0\%), law (5.1\%), health professions other than medical doctors or nursing (4.1\%), engineering (3.9\%), and nursing (3.4\%), although $8.9 \%$ of students were undecided. Interestingly, there were some notable differences in likely careers between male and female students. Specifically, more males than females planned to go into business ( $24.7 \%$ of males planned to enter this field, compared to $15.5 \%$ of females) and engineering ( $7.9 \%$ vs. $1.5 \%$ ). On the other hand, more females than males planned to go into nursing ( $5.1 \%$ of females indicated this as a planned career, compared to $0.6 \%$ of males) and education (14.2\% vs. 6.0\%).

Table 30 summarizes the current job search status for students who intend on being employed full-time in the fall after graduation ( $\mathrm{N}=15,570$ ). Approximately one-third of the students (36.8\%) reported having received a job offer at the time that they took the survey$24.3 \%$ reported having accepted an offer they received, a further $10.3 \%$ were considering an offer, and $2.2 \%$ had received an offer that they declined. Perhaps as a sign of the weak economy, most students (52.9\%) were actively looking for jobs and had not yet received any offers. The remaining $10.3 \%$ were not actively seeking a position when they took the survey.

## Table 30

Fall 2009 Plans: Job Search Status

Of those planning on working in fall 2009 ( $\mathrm{N}=15,570$ ), percent of students
reporting their current state of employment plans as:

Percent

Looking, but no offers yet 52.9

Accepted an offer of employment 24.3

Not actively looking for a position 10.3

Currently considering an offer 10.3

Received an offer for a position, but declined 2.2

Table 31 displays the application status of students who intend on enrolling in graduate school the next fall ( $\mathrm{N}=7,001$ ). Most of these students, $53.3 \%$, had already applied and been accepted to school. Another fifth (19.8\%) had applied and were awaiting response, $1.9 \%$ had applied and been placed on the wait list (no acceptances), and $1.5 \%$ had applied, been accepted,
and had deferred admission until a later date. Curiously, almost a quarter of students who indicated plans to attend graduate school in fall 2009 had not yet applied to school-18.3\% indicated that they planned to apply in fall 2009, and $5.1 \%$ indicated that they would not apply in fall 2009 but at some point in the future after that.

Table 31
Fall 2009 Plans: Graduate School

Of those indicating plans to attend graduate school in fall 2009 ( $\mathrm{N}=7,001$ ), percent of students reporting they were: Percent

Accepted and will be attending in the fall 53.3
Still awaiting responses, no acceptances 19.8

## A Longitudinal Perspective on College Experiences

Because the CSS was designed in part as a follow-up instrument to the annual Freshman Survey, almost one-third of the items on the CSS questionnaire directly post-test items from the earlier instrument. With these longitudinal data, institutions that administer the Freshman Survey (TFS) as well as the CSS to the same cohort of students can create a valuable data set for assessing how much their students change over the course of their undergraduate years. One of the most valuable aspects of longitudinal data collection is the ability to move beyond just a "snapshot" of the student experience toward a more effective measure of change and development over time. In 2009, over half of the graduating seniors who took the 2008 College Senior Survey also took The Freshman Survey (13,177 of 24,457, or $53.9 \%$ ). This next section of the report looks at this subset of matched data from this group.

## Changes in Self-Concept When Entering College

The Freshman Survey includes a series of items that asked incoming students to compare themselves to their peers on a variety of self-concept measures. Sixteen of these measures were directly post-tested on the 2009 CSS. As seen in Table 32, respondents’ perceptions of
themselves and their abilities relative to their peers generally increased while in college, particularly in regard to academic and social indicators. For example, the percentage of students who rated their self-understanding "above average" or "in the highest $10 \%$ " grew from $56.8 \%$ at the time of college entry to $69.0 \%$ at the end of college, an increase of 12.2 percentage points. Likewise, computer skills and writing ability also demonstrated double digit growth in the percentage of students who rated themselves highly after four years of college. Notably, two areas showed noticeable declines in high self-ratings from freshman to senior year. Specifically, from the time of college entry, the proportion of students who rated themselves "above average" or "in the highest $10 \%$ " relative to their peers in terms of mathematical ability decreased by 7.9 percentage points (from $52.6 \%$ to $44.7 \%$ ), and the proportion of students rating themselves the same in terms of physical health decreased 5.0 percentage points (from $59.2 \%$ to $54.2 \%$ ).

Table 32
Change in Students' Self-Concept

| Percent of students rating themselves "above average" | At college <br> entry <br> (TFS) | At end of <br> college <br> (CSS) | Change |
| :--- | :---: | :---: | :---: |
| or "in the highest 10\%" relative to their peers: |  |  |  |

## Expectations and Reality

On the TFS, students were asked to give their best guess as to the chances that they would engage in various activities during college. Seniors were asked about some of these same
areas on the CSS in order to determine whether their freshman expectations matched their undergraduate reality. Table 33 shows the extent to which students’ experiences in college corresponded to expectations they had as they began. In some cases, students' initial expectations very closely matched the reality they experienced during college. For example, almost every student (97.1\%) who thought there was a "very good chance" that he or she would communicate regularly with their professors actually did so; the same was true for socializing with someone of another race/ethnicity (97.1\%), being satisfied with the overall college experience (90.7\%), and making at least a "B" average (90.3\%). However, it was not only students who expected to engage in the above activities that ended up doing so; over $80 \%$ of students who thought there was "no chance" that they would have any of the aforementioned experiences actually did have them-93.4\% of the "no chance" students communicated regularly with their professors, $84.1 \%$ socialized with someone of another race/ethnicity, $87.2 \%$ were satisfied with their college, and $85.4 \%$ made at least a "B" average. Participating in volunteer or community service work was another activity for which a similar pattern was seen; $85.5 \%$ of students who felt there was a "very good chance" they would volunteer in college did so, as did $46.8 \%$ of those who felt there was "no chance."

Table 33
Student Expectations and Reality

|  | Among students who felt there was... |  |
| :--- | :---: | :---: |
|  | "Very good <br> chance" they would <br> do this | "No chance" <br> they would do <br> this |
| Percent who reported doing each of the following: |  |  |
|  | 97.1 | 93.4 |
| Communicate regularly with your professors | 97.1 | 84.1 |
| Socialize with someone of another racial/ethnic group | 90.7 | 87.2 |
| Be satisfied with your college | 90.3 | 85.4 |
| Make at least a 'B' average | 85.5 | 46.8 |
| Participate in volunteer or community service work | 71.9 | 2.4 |
| Play varsity/intercollegiate athletics | 69.8 | 5.6 |
| Join a social fraternity or sorority | 60.5 | 6.5 |
| Participate in a study abroad program | 45.7 | 17.5 |
| Seek personal counseling | 43.4 | 8.5 |
| Participate in student protests or demonstrations | 41.6 | 6.6 |
| Work full-time while attending college | 37.0 | 4.1 |
| Participate in student government |  |  |

Not all of students’ initial expectations closely matched the reality they experienced during college. As shown in Table 33, relatively few students who said there was a "very good chance" that they would participate in student protests or demonstrations actually did so (only $43.4 \%$ did this), the same was true for participating in student government ( $37.0 \%$ did so). Also, only $41.6 \%$ of students who believed there was a "very good chance" that they would have to work full-time while attending college ended up doing so.

## Change in Life Goals

The CSS and TFS data also allow for an examination of changes in students' life goals during college (Table 34). For the most part, respondents did not demonstrate major shifts in their life goals over the course of college. From the beginning of freshman year to the end of senior year, only eight of the twenty-one goals on both surveys saw a difference of six percentage points or more in the proportion of students rating them as "very important" or "essential." The largest differences were observed for the goals of becoming involved in programs to clean up the environment (19.9\% at college entry vs. $30.2 \%$ at the end of senior year), keeping up with political affairs (43.4\% vs. $51.9 \%$ ), influencing social values ( $41.9 \%$ vs. $50.2 \%$ ) and developing a meaningful philosophy of life ( $50.7 \%$ vs. $58.8 \%$ ). Other differences could be seen in the proportion of students aspiring to help others who are in difficulty (70.0\% vs. $76.6 \%$ rating it "very important" or "essential") and their inclination towards participating in a community action program ( $29.8 \%$ vs. $36.0 \%$ rating it "very important" or "essential"). Only one goal saw a large decrease in the proportion of students rating it "very important" or "essential." Specifically, 7.3 percentage points fewer students felt that being very well-off financially was "very important" to them at the end of college compared to the beginning (a decrease from 67.2\% to 59.9\%)

Table 34

|  |  |  |  |
| :--- | :---: | :---: | :---: |
| Percent of students reporting that the following are <br> "essential" or "very important" to them: | At college <br> entry <br> (TFS) | At end of <br> college <br> (CSS) | Change |
| Becoming involved in programs to clean up the environment | 19.9 | 30.2 | 10.3 |
| Keeping up to date with political affairs | 43.4 | 51.9 | 8.5 |
| Influencing social values | 41.9 | 50.2 | 8.4 |
| Developing a meaningful philosophy of life | 50.7 | 58.8 | 8.1 |
| Helping others who are in difficulty | 70.0 | 76.6 | 6.6 |
| Participating in a community action program | 29.8 | 36.0 | 6.2 |
| Having administrative responsibility for the work of others | 36.7 | 42.7 | 6.0 |
| Creating artistic work (painting, sculpture, decorating, etc.) | 13.2 | 18.8 | 5.6 |
| Improving my understanding of other countries and cultures | 57.5 | 62.0 | 4.5 |
| Writing original works (poems, novels, short stories, etc.) | 13.8 | 18.2 | 4.4 |
| Obtaining recognition from my colleagues for contributions to | 51.3 | 55.6 | 4.2 |
| my special field |  |  |  |
| Becoming a community leader | 38.3 | 42.5 | 4.2 |
| Helping to promote racial understanding | 32.2 | 35.5 | 3.4 |
| Integrating spirituality into my life | 48.3 | 51.4 | 3.1 |
| Influencing the political structure | 20.6 | 23.5 | 3.0 |
| Becoming an authority in my field | 58.4 | 61.2 | 2.9 |
| Becoming accomplished in one of the performing arts (acting, | 14.4 | 16.3 | 1.9 |
| dancing, etc.) |  |  |  |
| Raising a family | 78.5 | 80.4 | 1.9 |
| Making a theoretical contribution to science | 16.7 | 17.0 | 0.3 |
| Becoming successful in a business of my own | 36.2 | 35.2 | -1.0 |
| Being very well off financially | 67.2 | 59.9 | -7.3 |

## Change in Political Values

Over the course of college, students showed a shift in political views and values. Specifically, the proportion of students who characterized their political views as liberal or far left increased 9.2 percentage points from freshman to senior year while the proportion rating themselves middle-of-the-road or conservative/far right fell 2.6 and 6.6 percentage points, respectively (Table 35). Further, and perhaps not surprisingly, student attitudes regarding important national policies also liberalized during this time. Specifically, the proportion of students who believe that marijuana should be legalized ( $32.3 \%$ at college entry vs. $53.4 \%$ at the end of senior year), that same-sex couples should have the right to legal marital status ( $59.3 \%$ vs. $72.8 \%$ ), and/or that abortion should be legal ( $51.6 \%$ vs. $63.8 \%$ ) all increased by more than ten percentage points between freshman and senior year. Correspondingly, a decrease of nine
percentage points was seen among the proportion of students believing that it is important to have laws prohibiting homosexual relationships (23.8\% vs. 14.9\%). Interestingly, as this cohort of students experienced most if not all of their undergraduate years while the United States was at war in Iraq, the percent of students who believe that federal military spending should be increased dropped 9.9 percentage points between freshman and senior year ( $32.0 \%$ vs. 22.1\%).

## Table 35

Political Values

| Students' characterization of their political views: | At college entry (TFS) | At end of college (CSS) | Change |
| :---: | :---: | :---: | :---: |
| Liberal or Far Left | 29.8 | 39.0 | 9.2 |
| Middle-of-the-road | 39.9 | 37.3 | -2.6 |
| Conservative or Far Right | 30.3 | 23.7 | -6.6 |
| Percent of students reporting that they "agree somewhat" or "agree strongly" that: | At college entry (TFS) | At end of college (CSS) | Change |
| Marijuana should be legalized | 32.3 | 53.4 | 21.2 |
| Same-sex couples should have the right to legal marital status | 59.3 | 72.8 | 13.5 |
| Abortion should be legal | 51.6 | 63.8 | 12.2 |
| The death penalty should be abolished | 41.2 | 46.7 | 5.6 |
| Wealthy people should pay a larger share of taxes than they do now | 55.6 | 57.9 | 2.4 |
| Realistically, an individual can do little to bring about changes in our society | 20.5 | 21.1 | 0.6 |
| Affirmative action in college admissions should be abolished | 55.2 | 55.2 | 0.1 |
| Racial discrimination is no longer a major problem in America | 18.5 | 18.1 | -0.5 |
| The federal government is not doing enough to control environmental pollution | 78.8 | 76.2 | -2.6 |
| Colleges should prohibit racist/sexist speech on campus | 62.1 | 56.2 | -5.8 |
| A national health care plan is needed to cover everybody's medical costs | 70.0 | 64.0 | -5.9 |
| It is important to have laws prohibiting homosexual relationships | 23.8 | 14.9 | -9.0 |
| Federal military spending should be increased | 32.0 | 22.1 | -9.9 |

## Summary

This report shows that most seniors are highly engaged in academics in a variety of ways, both inside and outside of the classroom. In addition to spending time attending classes and labs, the majority reported frequently discussing course content with their peers in more informal settings outside the classroom. As one would expect, the vast majority of students also rated themselves "stronger" or "much stronger" in their knowledge of a particular field or discipline (98.0\%) and general knowledge (96.7\%). Overall, seniors also expressed high levels of satisfaction with their general education and core curriculum courses, class sizes, and educational facilities on campus.

In terms of extra-curricular experiences during college, seniors reported spending their time engaged in a number of activities including volunteering, working, exercising, and partying. The majority of students report spending significant amounts of time socializing with friends, and many of these interactions seem to be within diverse peer groups. Nearly half of all students surveyed have regularly socialized or shared a meal with students from a racial/ethnic group other than their own, and most students report that their knowledge of different races and cultures became "stronger" or "much stronger" during college.

Apart from their peers, students also spent time interacting with faculty. During senior year, two out of five students spent one hour or more per week talking with faculty members during office hours. Only about one in ten (11.3\%) students report having no interaction at all with faculty during office hours and one in five (19.6\%) students report no interaction outside of class or office hours in a typical week. Perhaps, this contributes to the fact that most students graduate satisfied with the amount of time they spent with professors at their college or university.

Many seniors are also paying attention to the world around them and are civically engaged. The large majority of students (83.7\%) at least "occasionally" discussed politics with their peers and almost four out of five seniors (78.0\%) reported voting in the 2008 presidential election. In addition, the undergraduate years appear to be a time of changing political preferences, as time spent in college seems to correspond with a change towards more liberal political values among CSS respondents.

Given the economic environment in 2009, it is probably not surprising that, among the students seeking employment, only one-fourth of the respondents (24.3\%) indicated having
accepted a job offer they received, whereas more than half of the students (52.9\%) were still actively seeking a position by the end of senior year. Perhaps in response to this, students report that the most important considerations in choosing their career path were the promise of a stable, secure future, and the availability of jobs.

For more information about the CSS, including a look at the 2010 survey instrument, details about registration and administration, and to view examples of how to use CSS and Freshman Survey data, visit our website: http://www.heri.ucla.edu/cssoverview.php.

| Leadership opportunities | (6) (5) (4) (3) (2) (1) |
| Recreational facilities | (6) (5) (4) (3) (2) (1) |
|  |  |

3. Please indicate your enrollment status below: (Mark one)
Full-time undergraduate
Part-time undergraduate
Not enrolled
4. Expected Graduation Date: 2008 Other 2009 Not sure
5. Since entering college, indicate how often you:
(Mark one in each row)
Worked on independent study projects
. .................... .
Discussed course content with students outside of class. $\qquad$ (F) (©) (N)

Have been a guest in a
professor's home .
(F) (ㅇ) (1)

Failed to complete homework on time $\qquad$ (F) (ㅈ) (1)

Have been bored in class....... (F) (©) (1)
Came late to class .............. (F) (0) (1)
Studied with other students ...... (F) (©) (N)
Performed community service
as part of a class ............. (F) (0) (1)
Voted in a student election....... (F) (O) (N)
Received course assignments electronically...................(©) (D)
Turned in course assignments
electronically. . . . . . . . . . . . . .
(F) (®) (1)

Used the Internet :
For research or homework ..... (F) (0) (1)
To read news sites .............(©) (1) (1)
To read blogs ................... (B) (©) (1)
To blog ..........................(©) (D) (1)
Used the library for research
or homework
. (F) (0) (N)
Missed class due to employment. (F) (0) (1)
Missed class for other reasons. . . (F) (D) (1)
Tutored another college student. . (F) (O) (1)
Met with an advisor/counselor about your career plans .......(F)(©) (1)
Fell asleep in class . . . . . . . . . . . . (F) (O) (N)
Had difficulty getting the courses you needed ...........(F) (©) (1)
Asked a professor for advice after class
. (F) () (1)
Demonstrated for/against a war . . (F) (©) (N)
Challenged a professor's
ideas in class ................ (F) (0) (N)
Felt intimidated by your professors. (F) © (1)
Worked on a professor's
research project
( (F) () (1)
Communicated regularly with
your professors ................(B) (D) (1)
6. Since entering college have you:
(Mark yes or no for each item)
(v) (1) Joined a social fraternity or sorority
(v) (N) Failed one or more courses
(V) (I) Worked full-time while attending school
(1) (N) Participated in student government
(1) (1) Taken a remedial course
(v) (N) Taken an ethnic studies course
(1) (1) Taken a women's studies course
(v) (N) Attended a racial/cultural awareness workshop
(1) (1) Had a roommate of different race/ethnicity
(®) (N) Participated in an ethnic/racial student organization
(V) (I) Played club, intramural, or recreational sports
(8) (1) Played intercollegiate athletics (e.g., NCAA or NAIA-sponsored)
(v) (I) Withdrawn from school temporarily
(1) (1) Enrolled in honors or advanced courses
(ㄱ) (1) Participated in an internship program
(v) (I) Participated in leadership training
(8) (1) Transferred from a community college
(1) (I) Transferred from a 4-year college
(1) (N) Participated in a study-abroad program
(v) (N) Taken courses for credit at another institiution
(v) (I) Participated in an undergraduate research program (e.g., MARC, MBRS, REU)
(1) (N) Participated in an academic support program
(1) (N) Voted in the 2008 presidential election
7. Mark your undergraduate and graduate major. (Use codes provided on the attached fold-out)
Undergraduate primary major
Undergraduate secondary major (omit if you do not have a secondary major) Graduate major (omit if you do not plan to go to graduate
 school)
8. Please mark your probable career/occupation. (Use codes provided on the attached fold-out)
9.During the past year, how much time did you spend during a typical week doing the following activities?
(Mark one in each row)
Studying/homework
Attending classes/labs
Socializing with friends .
Talking with faculty during office hours . . $\bigcirc \bigcirc \bigcirc \bigcirc \bigcirc$
Talking with faculty outside of
class or office hours
Exercising/sports ..........................
Partying. . . . . . . . . . . . . . . . . . . . . . . . . . $\bigcirc \bigcirc \bigcirc \bigcirc \bigcirc \bigcirc \bigcirc \bigcirc$
Working (for pay) on campus
Working (for pay) off campus

Student clubs/groups
Watching TV .
Housework/childcare
Reading for pleasure
Commuting .
Prayer/meditation
...................... $\bigcirc \bigcirc \bigcirc \bigcirc \bigcirc \bigcirc 00$
Career planning (job searches,
internships, etc.)
Playing video/computer games
Volunteer work .
Surfing the Internet $\qquad$
Online social networks (MySpace,
Facebook, etc.)

10. Compared with when you first entered this college, how would you now describe your: (Mark one in each row)

General knowledge.
(5) (4) (3) (2) (1)

Analytical and problem-solving skills
(5) (4) (3) (2) (1)

Knowledge of a particular field or discipline ....... (5) (4) (3) (2) (1)
Ability to think critically.$\ldots \ldots \ldots \ldots \ldots \ldots \ldots$. (5) (4) (3) (2) (1)
Knowledge of people from different races/cultures . (5) (4) (3) (2) (1)
Leadership abilities............................. (5) (4) (3) (2) (1)
Interpersonal skills .............................. (5) (4) (3) (2) (1)
Ability to get along with people of different
races/cultures.
(5) (4) (3) (2) (1)

Understanding of the problems facing your community. (5) (4) (3) (2) (1)
Understanding of social problems facing our nation .. (5) (4) (3) (2) (1)
Preparedness for employment after college ...... (5) (4) (3) (2) (1)
Preparedness for graduate or advanced education
(5) (4) (3) (2) (1)

Ability to manage your time effectively.$\ldots \ldots \ldots$. (5) (4) (3) (2) (1)
Understanding of global issues................ (5) (4) (3) (2) (1)
Foreign language ability $\ldots \ldots \ldots \ldots \ldots \ldots \ldots \ldots$. (5) (4) (3) (2) (1)
11. Please indicate the extent to which you agree or disagree with the following statements:
(Mark one in each row)
I have been singled out because of my race/ethnicity, gender, religious affiliation, or sexual orientation. I see myself as part of the campus community ..... (4) (3) I have heard faculty express stereotypes about racial/ethnic groups in class $\qquad$
 (4) (3) (2) (1) (4) (3) (2) (1)
(4) (3) (2) (1)

I feel I am a member of this college . . . . . . . . . . . . . . . . .
(4) (3) (2) (1)

Faculty here are interested in students' personal problems. (4) (3) (2) (1)
There is a lot of racial tension on this campus $\ldots \ldots$. (4) (3) (2) (1)

| 11. Cont. |  |
| :---: | :---: |
| Please indicate the extent to which you agree or disagree with the following statements: <br> (Mark one in each row) |  |
| There is strong competition among most of the studentsfor high grades . . . . ...............................(4) (3) (2) (1) |  |
| Faculty here are interested in students' academic problems . <br> I feel I have a sense of belonging to this campus |  |
|  |  |
| Faculty feel that most students here are well-prepared academically |  |

Federal military spending should be increased $\ldots \ldots \ldots \ldots$. (4) (3) (2) (1)
The federal government is not doing enough to control environmental pollution
(4) (3) (2) (1)

A national health care plan is needed to cover everybody's medical costs.
(4) (3) (2) (1)

Undocumented immigrants should be denied access to public education
(4) (3) (2) (1)

Through hard work, everybody can succeed in American society
(4) (3) (2) (1)

Dissent is a critical component of the political process . . . . . (4) (3) (2) (1)
Addressing global warming should be a federal priority $\ldots \ldots$ (4) (3) (2) (1)
20. If you borrowed money to help pay for college expenses, estimate how much you will owe as of June 30, 2009:
 .00
21. How much of the past year's educational expenses (room, board, tuition, and fees) were covered from each of the following sources?
(Mark one answer for each possible source)
Family resources (parents, relatives, spouse, etc.).
My own resources (income from work, work-study, etc.)

Aid which need not be repaid (grants, scholarships, military, etc.)............... .
(6) (5) (4) (3) (2) (1)

Aid which must be repaid (loans, etc.) ..... (6) (5) (4) (3) (2) (1)
Other sources ........................... (6) (5) (4) (3) (2) (1)
22. When thinking about your career path after college, how important are the following considerations: (Mark one in each row)
Working for social change ...................(E) (V) (5) (1)
High income potential . . . . . . . . . . . . . . . . . . . . . . (E) (V) (s) (1)
Social recognition or status .................. (E) (I) (S) (1)
Stable, secure future. . . . . . . . . . . . . . . . . . . . . . (E) (1) (S) (I)
Creativity and initiative . . . . . . . . . . . . . . . . . . . . . (E) (V) (S) (N)
Expression of personal values ................ (E) (I) (S) ©
Availability of jobs $\qquad$ (E) (V) (S) (1)

Limited working hours.
(E) (1) (S) (N)

Leadership potential
(E) (1) (S) (1)

Discovery/advancement of knowledge ........ (E) (I) (S) (N)
23. What do you plan to be doing in fall 2009?
(Mark all that apply)
Attending undergraduate college full-time
Attending undergraduate college part-time
Attending graduate/professional school
Working full-time
Working part-time
Working in a science/math/technology related job
Working in a humanities/social science related job
Participating in a post-baccalaureate program
Participating in a community service organization
Serving in the Armed Forces
Attending a vocational training program
Traveling
Doing volunteer work
Staying at home to be with or start a family
No current plans
24. If you are planning on being employed after graduation, which best describes the current state of your employment plans? (Mark one response only)
Not actively looking for a position
Looking, but no offers yet
Received an offer for a position, but declined
Currently considering an offer
Accepted an offer of employment
Not planning on employment this fall
25. If you are planning to attend graduate or professional school, which of the following best estimates the current state of your educational plans? (Mark one response only)
Accepted and will be attending in the fallAccepted and deferred admission until a later datePlaced on waiting list, no acceptancesStill awaiting responses, no acceptancesWill be applying this coming fallNot applying this fall, but might apply at a future dateNo plans to apply to school now or in the future
26. Think back over the past two weeks. How many times in the past two weeks, if any, have you had five or more alcoholic drinks in a row? (A drink can be a 12-ounce beer or wine cooler, a 4-ounce glass of wine, or a shot of liquor either straight or in a mixed drink.)
None
Twice 6-9 times
Once
3-5 times

10 or more times
27. If you could make your college choice over, would you still choose to enroll at your current college?
Definitely yes
Probably no
Probably yes

- Definitely no

28. How would you characterize your political views? (Mark one)
Far left
Middle-of-the-road
Conservative
Liberal
Far right
29. What is the average grade you received during your college career, both overall and in your major? (Mark ONE circle in each row)

Primary Major GPA $\qquad$
30. Your current religious preference: (Mark one)

|  | LDS (Mormon). |  |
| :---: | :---: | :---: |
| Buddhist | Lutheran ...... | United Church of Christ/ |
| Church of Christ | Methodist ..... | Congregational ..... $\bigcirc$ |
| Eastern Orthodox. | Muslim ....... | Other Christian ...... |
| Episcopalian | Presbyterian... | Other Religion . . . . . . |
| Hindu | Quaker ........ | None . . . . . . . . . . . . |
|  | Roman C |  |

31. Please indicate your racial/ethnic background.
(Mark all that apply)
White/Caucasian
African American/Black
Mexican American/ChicanoAmerican Indian/Alaska Native
Puerto RicanAsian American/Asian
Other LatinoNative Hawaiian/Pacific Islander
32. Your sex:
Female - Male
33. Do you give the Higher Education Research Institute (HERI) permission to include your ID number should your college request the data for additional research analyses? HERI maintains strict standards of confidentiality and would require your college to sign a pledge of confidentiality.
Yes

## COLLEGE SENIOR SURVEY STUDENT INFORMATION SHEET

## PURPOSE OF THE STUDY

You are asked to complete this survey as part of a national study of higher education conducted by the Higher Education Research Institute (HERI) at the University of California, Los Angeles. One major goal of this research is to determine what happens to students when they attend college. The data gathered are used in studies designed to better understand student learning and development and to help improve the quality of college education. Your decision to participate (or not to participate) will not affect your relationship with your college nor your grades.

## PROCEDURES

If you volunteer to participate in this study, we would ask you to complete the attached survey and return it to the designated person at your campus. Most respondents can complete this questionnaire in about 25 minutes, although individual progress will vary by how quickly you move through the questions.

If you volunteer to complete this survey, you may decide not to complete the survey for any reason at any time without consequence of any kind. The Higher Education Research Institute does not offer payment for participation. Your completion and return of the enclosed questionnaire indicate your consent to participate in the study.

## POTENTIAL BENEFITS TO SUBJECTS AND/OR SOCIETY

You may have the opportunity to reflect on your prior academic experiences and your expectations for college as you complete the survey, which may enhance self-understanding. Results of your participation also will be directly beneficial to your college or university, and may benefit future generations of college students as well.

## POTENTIAL RISKS AND DISCOMFORTS

There could be survey items that you are uncomfortable answering or to which you would simply prefer not to respond. Your participation in this study is strictly voluntary, and you will be under no obligation whatsoever to answer any questions that you are not inclined to answer. You may choose not to answer any specific questions you do not want to answer and still remain in the study.

## CONFIDENTIALITY

Please note that your responses will be used for research purposes only and will be strictly confidential. Any information that is obtained in connection with this study and that can be identified with you will remain confidential and we will release your survey data back to your institution with identifying information only if we have your explicit permission to do so (survey question \#33). Further, all colleges receiving such information are required to certify in advance that the data will only be used for research purposes and will not be used to investigate specific individuals. If you do not give us your permission to release your survey data with identifying information, we will provide your college with non-identifiable data.

## IDENTIFICATION OF INVESTIGATORS

If you have any questions or concerns about the research, please contact Mr. John Pryor at this address

Higher Education Research Institute
UCLA Graduate School of Education and Information Studies Box 951521
Los Angeles, CA 90095-1521
Email: heri@ucla.edu
Phone: 310-825-1925

## RIGHTS OF RESEARCH SUBJECTS

You may withdraw your consent at any time and discontinue participation without penalty. You are not waiving any legal claims, rights or remedies because of your participation in this research study. If you have questions regarding your rights as a research subject, contact the Office for Protection of Research Subjects, 1401 Ueberroth Building, UCLA, Box 951694, Los Angeles, CA 90095-1694, (310) 825-8714.
7. Below is a list of different MAJOR fields for undergraduate and graduate study. (Fill in appropriate two-digit code on your survey) Undergraduate major (final or most recent) \& Graduate major (omit if you do not plan to go to graduate school)

Carefully detach this section after answering Questions 7 and 8.

[^0]:    Note: CIRP Constructs are scored on a normal curve, a "Low" score represents students who are one-half standard deviation or more below the mean, a "High" score represents students who are one-half standard deviation or more above the mean, and an "Average" score represents students whose scores are within one-half standard deviation of the mean.

[^1]:    Notes:

    * indicates institutions that participated in the 2003 CIRP Freshman Survey
    - indicates institutions that participated in the 2004 CIRP Freshman Survey
    $\wedge \quad$ indicates institutions that participated in the 2005 CIRP Freshman Survey
