PURPOSE OF THE STUDY
You are asked to complete this survey as part of a national study
carried out by the Higher Education Research Institute (HERI) at the
University of California, Los Angeles. This study is designed as an
exit survey for seniors. Your college or university may then use this
information to measure students’ cognitive and affective growth
during college. The ultimate goal is to measure the impact of college.

PROCEDURES
To participate in this study, please complete and submit the
attached survey. Most respondents complete this questionnaire in
about 25 minutes, although individual progress will vary by how
quickly you move through the questions.

You may decide not to complete the survey for any reason at any
time without consequence of any kind. The Higher Education
Research Institute does not offer payment for participation, Your
participation and responses to the questionnaire indicate your
consent to participate in the study. We ask for your name and email
address so that the researchers at UCLA can contact you at some
later date for follow-up study.

POTENTIAL BENEFITS TO SUBJECTS AND/OR SOCIETY
You may have the opportunity to reflect on your experiences in
college as you complete the survey, which may enhance self-
understanding. Your responses to the survey also will be directly
beneficial to your college or university, and may benefit future
generations of college students as well.

POTENTIAL RISKS AND DISCOMFORTS
There could be survey items that you are uncomfortable answering
or to which you would simply prefer not to respond. Your
participation in this study is strictly voluntary, and you will be under
no obligation whatsoever to answer any questions that you are not
inclined to answer. You may choose not to answer any specific
questions you do not want to answer and still remain in the study.

CONFIDENTIALITY
Please note that your responses will be used for research purposes only
and will be strictly confidential. Any information that is obtained in
connection with this study and that can be identified with you will remain
confidential. Your identified responses will be returned to your institution
for institutional assessment purposes. Before receiving any responses,
your school is required to certify in advance that the data will only be
used for research purposes and will not be used to investigate specific
individuals. Names and email addresses will not be returned to your
institution, however Student ID Numbers will be included in the final data
file to allow your institution to merge responses with other campus data.
